Career Objective

Full Stack Developer skilled in the MERN stack, REST API design, and AI-integrated tools, with hands-on experience delivering production-style projects including an AI-powered DSA learning platform and a SaaS-style CRM dashboard. Seeking a Software Engineer / Full Stack Developer role to design and scale reliable, user-focused products.

Education

Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology – B.Tech, Information Technology 2023 – 2027

CGPA: 7.99 / 10.0

Sainik School Satara – Senior Secondary (Class XII), CBSE

2022 – 2023

Percentage: 76.60%

Experience

Uptoskills

Jan 2026 – Apr 2026

Full Stack Developer Intern

Remote

- Developed responsive full-stack features using React.js, Node.js, Express.js, and MongoDB, improving application performance and user experience.
- Designed and deployed secure REST API endpoints for authentication and core business logic, ensuring reliable data flow between frontend and backend.
- Collaborated with the development team using Git workflows, code reviews, and modular architecture, maintaining clean and maintainable code.

Technical Skills

Languages: JavaScript, Python, C++

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Client-Server Architecture

Tools: Git, GitHub, Postman, VS Code, Netlify, Vercel, Render

Projects

AI DSA Mentor – React.js, Node.js, Express.js, OpenRouter API, MongoDB, JWT

GitHub:

github.com/sadanandshinde633

- Developed a full-stack AI-powered DSA learning platform with in-browser code execution via Monaco Editor and the Judge0 sandbox API.
- Engineered a 3-level progressive hint system using OpenRouter (GPT-4o-mini) with custom prompt engineering to guide learning without revealing direct solutions.
- Implemented JWT authentication, bcrypt password hashing, and progress tracking across 10 categories with 35 curated problems in MongoDB Atlas.

Shopify CRM Dashboard – React.js, Tailwind CSS, Recharts, Node.js

GitHub: github.com/sadanandshinde633

- Developed a responsive SaaS-style CRM dashboard with customer management, order tracking, and webhook monitoring.
- Built reusable React components with search, filtering, and dark mode, improving development efficiency and UI consistency.
- Designed interactive revenue analytics using Recharts, improving data visibility for business decision-making.

Certifications

- Java and Data Structures and Algorithms – 30 Hours
- Python for Data Science – NPTEL, IIT Madras
- Programming in Java – NPTEL, IIT Kharagpur
